

Dear Colleagues,

We are pleased to announce that the second International School and Workshop on **Matter in Extreme Conditions: from MATERIAL science to Plasmas for Laboratory Astrophysics** will be held March 17th - March 23rd 2019, at Montgenèvre, [les villages clubs du soleil](http://www.villagesclubsdusoleil.com), France.

[Montgenèvre](http://www.villagesclubsdusoleil.com) is a beautiful village in the French Alps, near the Italian border.

A School web site <http://web.luli.polytechnique.fr/MECMATPLA/index.php> provides most of the necessary information about important dates, the conference topics and the meeting venue.

Registration is will be opened September 15th
The number of participants is limited to 65.
