

International School and Workshop

## MECMATPLA:

# Matter in Extreme Conditions for Magnetized Plasmas

Montgenèvre - March 8 to 13, 2026

### Topics

- MHD
- B field in astrophysics
- B field in laser experiments
- Laboratory Astrophysics
- ICF
- UHI Physics
- Planetary Science
- Warm Dense Matter
- Plasma Diagnostics

### International Research Network

5 participating countries: France, Japan, United Kingdom, Germany, United States of America (LLE & LLNL)

### Organization

We will have ~30 lectures/talks and a total of 90 participants (PhD students, postdocs & scientist). Please apply via our website or contact the organizers.
