

# Call for Proposal for ILE Collaborative Research for FY2021

Institute of Laser Engineering, Osaka University -Joint Usage/Research Center for laser energy science

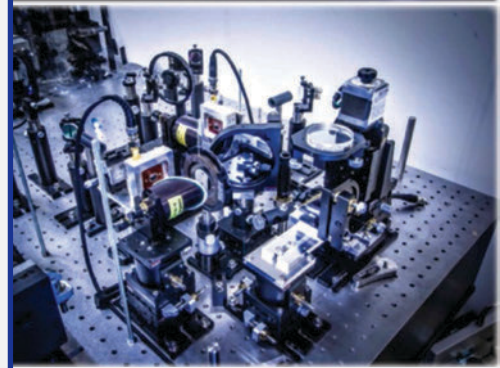

Schedule

Please select research method and research field from the followings:

- ### Research Methods
- Use of the Large Laser Facility -GEKKO XII and LFEX
  - Use of Medium Size Lasers and Computer Codes
  - Individual Collaborative Research
  - Workshop related to High Energy Density Physics

- ### Research Fields
- **High Energy Density Science**
    - Laser Astrophysics
    - High Pressure / Laser Earth & Planetary Science
    - High Magnetic Field Science
    - Quantum Beam Science
    - Plasma Science
  - **Laser Science and Optics**
    - Terahertz Science
    - Power Laser Science
    - Laser & Optical Material
  - **Initiative**
    - Physical Informatics
  - **General Subjects**

Please contact the host scientist in each research field before applying.

For details, please see <https://www.ile.osaka-u.ac.jp/eng/collaboration/collaboration-top/index.html>
